PROFESSIONAL SUMMARY

Data Analyst with 3 years of experience in IT operations, business reporting, and SLA/KPI monitoring. Experienced in developing daily, weekly, and monthly operational reports and interactive dashboards using Power BI, Advanced Excel, SQL, DAX, Power Query, and Tableau. Skilled in data cleaning, modeling, reporting automation, and transforming complex operational data into actionable business insights that improve reporting accuracy, operational efficiency, and decision-making.

SKILLS

- **Reporting & BI:** Power BI, Tableau, DAX, Power Query, Advanced Excel
- **Databases & Cloud:** SQL, MySQL, AWS, Microsoft Azure
- **IT Operations:** ServiceNow, Commvault, Rubrik, NetApp, Pure Storage
- **Programming & AI:** Python, Generative AI, AI Agents, Streamlit
- **Technical Concepts:** ETL, Data Modeling, SLA/KPI Reporting, Data Governance

PROJECTS

1. Classic Models Sales Analysis Dashboard

- Developed an end-to-end Power BI dashboard by integrating 6 relational MySQL tables to analyze \$9.6M+ in sales across 323 customer orders.
- Built advanced DAX measures including MTD, YTD, and MoM growth calculations, and designed interactive multi-page dashboards with decomposition trees, KPI cards, bookmarks, slicers, and measure toggles to track sales performance, profitability trends, and average order value (\$29.65K).
- Performed data modeling and business analysis to identify top-performing product lines (Classic Cars: \$3.85M sales) and highest-value customers, improving reporting clarity and executive-level decision support.

Tools: MySQL, SQL, Power BI, DAX, Power Query, Data Modeling

2. DiabetesPulse – AI-Powered Diabetes Risk Prediction System

- Created a dual-agent healthcare application using a Random Forest classifier and Google Gemini 2.5 Flash API to predict diabetes risk with AI-generated health explanations.
- Trained a Scikit-learn ML model on 700+ Pima Indians Diabetes records and deployed it via an interactive Streamlit app with REST APIs, delivering real-time risk predictions up to 85% accuracy with AI-generated explanations.

Tools: Python, Scikit-learn, Pandas, NumPy, Streamlit, Gemini API, REST APIs, Machine Learning

3. Washington EV Analysis Dashboard | Tableau

- Analyzed 100K+ Washington State EV registration records and built an interactive Tableau dashboard with maps, charts, and manufacturer-based filters to identify adoption trends across 10+ counties.
- Identified key insights revealing Tesla leading EV registrations (59,485) and King County's highest EV concentration (6,402 vehicles).

Tools: Tableau, Excel, CSV, Geospatial Analysis, Data Visualization

WORK EXPERIENCE

Atos Global IT Solutions and Services Private Limited

Senior Associate Engineer

Sept 2022 – Sept 2024

- Monitored and optimized backup and storage environments supporting 100+ servers, ensuring 99%+ data availability and resolving issues to minimize downtime.
- Administered backup platforms Rubrik and Commvault, performing daily backup and restore operations, new build server configurations, decommissioning activities, and handling SnapVault backup failures for 100+ scheduled jobs.
- Worked on user-raised incidents and service requests, resolving 20-30 issues per week and ensuring timely SLA compliant resolution.
- Designed, developed, and maintained daily and weekly Commvault and Rubrik reports and dashboards, providing insights into backup performance, status, and success rates.
- Handled NetApp file-level backups and restores for 50+ users, ensuring reliable data protection and quick recovery for end users.
- Configured and maintained storage, media management, and deduplication policies for 100+ backup jobs across APAC, EMEA, and AMER regions, troubleshooting CommServe console issues, and maintaining backup schedules to improve backup performance.
- Implemented 20+ change requests via ServiceNow, performing impact analysis and presenting data-backed proposals during CAB meetings for timely and efficient implementation.

Associate Consultant

Sept 2021 – Sept 2022

- Monitored and managed a ServiceNow queue handling 10–15 support tickets per day, ensuring 95%+ SLA compliance and minimal system downtime.
- Prepared and distributed daily and weekly backup performance reports covering 50-100+ backup jobs, providing insights into job success rates, failures, and system availability.
- Provided technical support for backup and storage systems across 100+ servers, resolving incidents and service requests within defined SLAs.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- AWS Certified Solutions Architect – Associate
- AWS Certified Cloud Practitioner
- 5-Day AI Agents Intensive Course with Google — Kaggle
- Cambridge English Certification (Business Preliminary)

EDUCATION

S.A. Engineering College, Anna University — Chennai, Tamil Nadu

Bachelor of Engineering (B.E.), Computer Science & Engineering | 2017 – 2021 | CGPA: 8.4

LANGUAGES

- **English:** Professional Proficiency
- **Tamil:** Native Proficiency
